The President's Club

Notre Dame proudly celebrates 63 years of academic excellence, tradition, and community. These core values are Notre Dame's legacy and are the foundation of our mission. President's Club members embody the values of Notre Dame High School and are motivated to support its continued success.

The Fund for Notre Dame, the cornerstone of our fundraising efforts, is an annual appeal that enables us to go above and beyond for our students and faculty.

Simply stated, tuition alone does not cover the cost of a Notre Dame education, and the dollars raised each year, through the generous support of parents, grandparents, alumni, faculty, staff, and friends of Notre Dame, give us the ability to provide an education that exceeds expectations, especially when faced with today's unprecedented challenges.

Your generosity allows us to go further when it comes to innovative curriculum, expansive athletic, arts and co-curricular opportunities, essential professional development for faculty, improvements to our campus, and tuition assistance.

The President's Club is a recognition society honoring Notre Dame's most generous donors. President's Club members believe that by contributing at a leadership level—\$1,000 and above—they are making a critical investment in the Notre Dame family and helping advance our mission in a significant way. By joining the President's Club and renewing your membership each year, you are making a powerful and lasting statement that exceptional academics within a dynamic, diverse Catholic community are essential in today's world.

We are asking you as members of our community to make a gift that goes Above and Beyond for our students this year.

THE PRESIDENT'S CLUB AT NOTRE DAME HIGH SCHOOL

As a member of the President's Club, you will receive special recognition and opportunities to engage with School and community leaders through exclusive events and communications.

Join the President's Club and take your place among Notre Dame's philanthropic leaders by making an annual gift at one of the following levels:
